EDUCATION

Indian Institute of Information Technology Bhagalpur

Bachelor of Technology in Computer Science and Engineering

Bhagalpur, Bihar

August 2023 – July 2027

EXPERIENCE

Tech Lead

January 2026 – June 2026

Lakhil Raj Welfare Foundation (NGO)

Remote

- Architected and developed the NGO's official website, e-commerce platform, and CMS using **Next.js**, **NestJS**, **PostgreSQL**, and **MongoDB**.
- Built secure authentication, payment integration, certificate verification, and an admin dashboard to streamline organizational operations.
- Automated manual workflows and analytics, improving operational efficiency while supporting **1,000+ users**.

PROJECTS

Code Duel | *Next.js, TypeScript, NestJS, Kafka, BullMQ, PostgreSQL, Docker, Redis*

[GitHub](#) / [Link](#)

December 2026

- Developed a distributed competitive coding platform with real-time code collaboration using the Monaco Editor and WebSockets.
- Designed a microservice architecture using NestJS, Kafka, and BullMQ for scalable contest management and asynchronous code execution.
- Integrated Judge0 for secure multi-language code execution and Docker for isolated runtime environments.

YouTube Screenshot Notes | *Chrome Extension, Plasmo, Gemini API, Firebase*

[GitHub](#) / [Link](#)

February 2026

- Built an AI-powered Chrome extension that captures timestamped YouTube screenshots and automatically generates structured, searchable notes using the Gemini API.
- Integrated **Microsoft OneNote** via the **Microsoft Graph API**, enabling users to seamlessly synchronize AI-generated notes and screenshots into their personal OneNote notebooks.
- Published the extension on the Chrome Web Store, achieving **140+ installs**, while implementing secure authentication, responsive UI, and optimized data management for a seamless learning experience.

MailFlow | *Chrome Extension, Razorpay, Prisma, Redis, BullMQ, Gmail API*

June 2026

- Developed an AI-powered Chrome Extension for cold email automation, enabling users to generate personalized outreach emails, manage campaigns, and automate email delivery from Gmail.
- Integrated **Google OAuth 2.0**, **Gmail API**, **Gemini AI**, **Groq AI**, and **Razorpay** to implement secure authentication, AI-assisted email generation, subscription-based features, and intelligent campaign workflows.
- Designed a scalable backend using **NestJS**, **PostgreSQL**, **Prisma**, **Redis**, and **BullMQ**, supporting background job processing, scheduled email queues, rate limiting, and secure REST APIs.

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, Typescript, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Zustand, Prisma

Databases: PostgreSQL, MongoDB, MySQL, Redis

Cloud & DevOps: Docker, Kafka, Google Cloud Platform, Cloudinary, NeonDB

API & Integrations: Gemini API, OpenAI API, LangChain, Gmail API, Google Calendar API, Microsoft Graph API, Razor pay

Tools & Practices: Git, GitHub, Postman, Figma, Protopie, Canva

Core CS: Data Structures & Algorithms (DSA), DBMS, Operating Systems (OS), Object-Oriented Programming (OOP), Computer Networks (CN)

ACHIEVEMENTS

- Coding Profile:** **LeetCode** ([Link](#)), **CodeChef** ([Link](#)), **Codeforces** ([Link](#))
- Ranked among the **Top 15 teams** at the **Bit-by-Bit Hackathon**, competing against teams from across India.
- Led a team of **15+ volunteers** as **Research & Development Lead** at **Unnati Welfare Society**, driving **digital education initiatives**, **technology projects**, and **student mentorship programs**.
- Mentored and guided a team of **10+ interns** at **LakhilRaj Welfare Foundation**, providing technical guidance, assigning tasks, and ensuring successful project execution.
